PROFESSIONAL SUMMARY

Computer Science Engineering Diploma (2026) student with hands-on experience in C#, ASP.NET Core MVC, Entity Framework Core, SQL Server, MySQL, JavaScript and React.js. Completed practical internships in .NET development and React.js, and built full-stack web applications using CRUD operations, REST APIs, database design and Git/GitHub. Seeking an entry-level .NET Developer role.

TECHNICAL SKILLS

- Languages: C, C++, C#, JavaScript
- Frameworks: ASP.NET Core MVC, Entity Framework Core, React.js
- Frontend: HTML5, CSS3, Bootstrap, Redux Toolkit
- Databases: SQL Server, MySQL
- Tools: Git, GitHub, Visual Studio, VS Code
- Concepts: OOP, SDLC, CRUD Operations, REST APIs, Database Design

INTERNSHIP EXPERIENCE

React.js Intern — Internship Studio

1 Month

- Developed an e-commerce website using React.js during the internship training.
- Built reusable UI components and implemented responsive layouts using HTML, CSS and Bootstrap.
- Worked with product display and cart-related functionality while applying React fundamentals.

.NET Development Intern — KSS Chitrakoot

2 Months

- Worked on the E-Education project using ASP.NET Core MVC, C#, and MySQL.
- Implemented CRUD functionality and backend logic for application data management.
- Gained practical exposure to SDLC, database handling, debugging and software development workflow.

PROJECTS

E-Education Platform | ASP.NET Core MVC, C#, MySQL

- Developed a learning platform with course management and CRUD functionality.
- Designed responsive UI and implemented database-driven application features.

Blog Management System | ASP.NET Core MVC, Entity Framework Core, MSSQL Server

- Built a CRUD-based blog application with posts, categories and comments management.
- Implemented Entity Framework Core for data access and relational database operations.

Apna Grocery – E-Commerce Website | React.js, Redux Toolkit

- Developed a responsive grocery e-commerce frontend with product filtering and cart management.
- Implemented application state management using Redux Toolkit and deployed the project on Netlify.
- Live Demo: <https://apna-grossery.netlify.app>

EDUCATION

- Diploma in Computer Science Engineering (2026) – Government Polytechnic Mahoba, Uttar Pradesh – 74%
- Class XII (UP Board) – 75% (2023)
- Class X (UP Board) – 87.3% (2021)
